**This is to acknowledge that I have received a copy of the *Children’s Home Society of California Written Information to Child Care Providers* document.**

I further acknowledge that it is my responsibility to read and understand the information contained in the *Children’s Home Society of California (CHS) Written Information to Child Care Providers*. I understand that in order to be reimbursed for services to a family enrolled in the Child Care Payment Program (CCPP) and/or Family Child Care Home Education Network (FCCHEN), I must meet any requirements that pertain to child care providers. I understand that if those requirements are not met, the parent will be required to select a different child care provider for participation in the CCPP or FCCHEN and the relationship with CHS will end.

I further understand that policies, requirements, and general information about the program may change based upon requirements from the California Department of Social Services (CDSS) and/or CHS, with or without prior notice.
